

Total Relocation Services LLC

An Agent for Bekins

The **EZ-CRATE** plastic bin moving system is designed to make your office moves *quick* and *easy*.

Pack, Stack & Move . . . *It's that easy!*

1

The easy stacking bin design allows the EZ-Crate to be delivered right into your office.

2

Place one of the lightweight plastic bins on its custom designed dolly for easy loading.

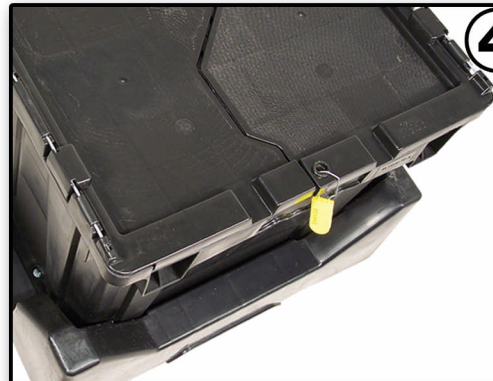

3

As you fill each plastic bin, just stack more bins on top. The interlocking dolly and bin system allows you to stack up to 4 high.

4

Reinforced tie-holes allow you to seal boxes with security seals, zip ties, or locks.

5

When you are ready, your full bins will be moved from your old office to your new one.

6

The EZ-Crate is as easy to unload as it is to load. Now your move is complete. It's that easy!
